EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Rusty Hill on November 8, 2005.

The application has been amended as follows:

Claim 3 now reads as follows: An image processing method as set forth in claim 1, further comprising the steps of inputting image data of a target element, analyzing the input image data, and generating said element module data by using said main module data, said sub material module data, processing apparatus module data and said processing routine module data selected based on results of the analysis.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 16, and 17 are allowable over the prior art of record. Claims 3-15 depend from claim 1, and therefore, are allowed. Claim 20 depends from claim 17, and therefore, is allowed.

Independent claims 1, 16, and 17 recite the limitation: generating element module data indicating an attribute of said element using said main material module data, said sub material module data, said processing apparatus module data and said processing

routine module data. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by prior art of record.

The closest reference of USPN 5,815,645 to Fredlund et al. discloses incorporating design attributes of surrounding items into generating a merged image. However, Fredlund does not teach the limitation as cited above.

In view of the amended claims and the Applicant's arguments, the rejection and objections to claims 1, 3-17, and 20 are expressly withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
